COLOR CHART

A POWERFUL COMBINATION

Elite Batten features our patent-pending design that securely locks a strong batten over the Elite Rib Panel, combining a hidden fastener system with the reliability of our Elite Rib exposed fastener panel.

The 36-inch Elite Rib panels are easy to install on both sheathing (recommended) and framing (optional).

Elite Batten is a win-win-win: efficient installation, superior performance, and extra customization. Lock in your project today!

1. LINE UP

Elite Rib panel is lined up with structure according to the Installation Guide.

2. LOCK IN

Place self-aligning clip at specified distances along the rib. Fasten at center.

3. SNAP ON

Snap the batten into place over each clip. Ensure a tight fit and enjoy!
